

**DURING OUR COMMUNITY CLEAN UP ON APRIL 26,27,28,2019 AND
OCTOBER 04,05,06,2019**

What can't I put in Blendon Township's dumpsters?

Generally speaking, you **cannot** put any type of hazardous materials in our dumpsters, including wet paint, oil (other liquids), asbestos, sealed tanks/drums, electronics, tires freezers and refrigerators. You'll find more information below.

ITEMS NOT PERMITTED: PAINT, STAINS, AND LACQUERS

You cannot throw paint, paint thinners, lacquers, or wood stains in a dumpster. If you have leftover latex paint that can't be reused or recycled, **allow the paint to solidify** by pouring it into a box with kitty litter or shredded paper. Once it's hard and dry, toss it in the dumpster or your weekly trash. Empty, dried paint cans can also be thrown out in your curbside trash.

TIRES

Because a majority of landfills in the U.S. do not accept tires, you cannot put tires in our dumpster, however, **we are** accepting tires (no rims) on our Blendon Complex (but not in the dumpsters).

HAZARDOUS WASTE

No hazardous waste of any kind.

No chemicals of any kind.

No oil based paints.

No fluorescent bulbs.

No freezers or refrigerators.

No motor oil and other automotive fluids, propane tanks, household cleaners, ink and resins, contaminated soil or absorbents, asbestos, pesticides, and medical waste should never be put in a dumpsters. No fungicides (mold killers) gasoline, herbicides (weed killers), insecticides, kerosene, lighter fluid, pesticides (bug/rodent killers).

NO railroad ties or any other asbestos materials

BATTERIES

Car batteries and dry-cell batteries **cannot** be put in a dumpster because they can leak chemicals that harm the environment. Instead, recycle car batteries by returning them to nearly any store that sells car batteries. Similarly, drop off old dry-cell batteries, like lithium, AA, and AAA, in designated bins commonly found in Home Depot Stores.

Watch your Blendon newsletter for SWACO's Hazardous Waste Drop Off information for our community later this summer or visit www.swaco for their other community collection events where people can drop off their hazardous waste for proper disposal.

PERMITTED ITEMS:

NOTE: Our staff will not be available to assist you putting items into the dumpsters. Please bring your own help.

Mattresses are permitted in our dumpsters.

Furniture Items

Small appliances

Electronics **NOTE:** We also have a free standing Electronics Drop Off Box on the Blendon Complex seven days a week, 24 hours a day. Located behind the Senior Center

Televisions

Patio Furniture

Any items that Rumpke would take as a bulk
